Dana T, as you know OSRTI has not been actively involved in these calls, which is fine. Just wondering if you have a sense as to whether it would add value, and if not now, at what point it might make sense for OSRTI involvement. Thanks – Dana S

Martin/Bert,

Bill Honker called me this morning to suggest the value of a senior level coordination call with HQ and Regions 6, 8, and 9 for Superfund and Water program managers. The envisioned focus would be on transition from short-term monitoring that has occurred linked to the emergency response, to whatever long-term monitoring program we decide upon going forward.

I let Bill know that Martin and I had discussed this broadly (SF-Water coordination) a couple weeks ago, and I was sure he would be interested.

So sharing this suggestion with SF Emergency Response and Remedial Program managers here in HQ, to welcome any feedback and provide heads up of possible call in next week or two on this.

Dave
